

WATERS IS TOP MANUFACTURER OF COLUMNS  
ACCORDING TO LC MAGAZINE SURVEY

Respondents of a recent LC Magazine survey were asked to name the manufacturers in use in their lab. The ranking was determined according to frequency of mention by survey respondents.

**MANUFACTURER INFORMATION**

**EQUIPMENT/SUPPLIES**

**CURRENTLY IN USE**

Respondents were asked to name the manufacturers of the following equipment and supplies currently in use in their labs.

**Top Manufacturers\***

<i>Pumps</i>	<i>Columns</i>	<i>Solvents</i>
1. Waters	1. Waters	1. Burdick & Jackson

3. Valco	3. Micromeritics	3. Beckman/Altex
4. Beckman/Altex	4. Perkin-Elmer	4. Kratos
		5. LDC Milton Roy
<i>Data Handlers</i>	<i>Temperature Regulating Devices</i>	<i>Recorders</i>
1. Hewlett-Packard	1. Perkin-Elmer	1. Houston
2. Waters	2. Varian	2. Linear
3. Beckman/Altex	3. Haake Buchler	3. Hewlett-Packard
	4. Waters	4. Varian
	5. BAS	5. Waters

\* All manufacturers listed throughout this survey are ranked according to frequency of mention by survey respondents. In all cases, respondents were asked for the names of manufacturers of equipment they currently use; no opinion of quality was solicited.

It is gratifying to see that Waters ranks #1 in columns as it did in pumps, autosamplers and detectors.
