WATERS COLUMNS ARE THE FIRST CHOICE OF THE CHROMATOGRAPHERS SURVEYED BY SCIENCE MAGAZINE

WatersTM columns are the first choice of the chromatographers surveyed by Science Magazine.

For the last two years Science Magazine tracked brand preference of LC hardware and columns. Waters was clearly the brand preference in 1983 and 1984 with 39% of the respondents saying Waters is their first choice in columns. It is also important to note that in 1984 an additional 22% said Waters was their second choice.

SCIENCE | The weekly magazine of research HPLC COLUMNS - 1st CHOICE

<u>RANK</u>	<u>1983</u>		<u>1984</u>	
1	Waters	39%	Waters	39%
2	Beckman	14	Beckman	15
3	Varian	9
